Providing Support

Enhance Compliance with New Admin Controls

Concur TripLink Admin Controls is a new feature which allows you to manage your policy around supplier direct bookings with a variety of pre-populated messages which are automatically conveyed to your end-users.

New Admin Controls

Overview

Highlight Preferred Suppliers

Select your preferred travel suppliers, so they can be prioritized for end-users.

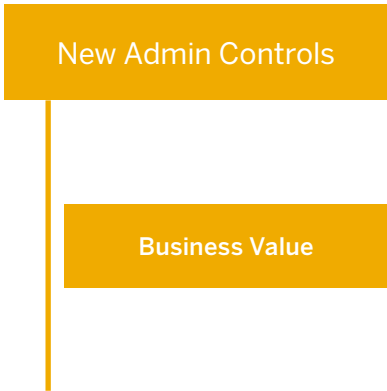

Be Clear About Policy

Use clear messaging to let travelers know if travel supplier direct bookings are allowed.

Turn Off Certain Suppliers

Certain travel suppliers can be inactivated within the system if needed, by request.

Adding Value to Your Business

By utilizing the new admin functionality, you can add value to your business by improving traveler satisfaction and ensuring policy compliance.

Gain Greater Visibility

Bookings made outside of your organization's preferred methods are now visible for a 360-degree view of all bookings.

Flexibility on Partners

Personalize how travel suppliers are presented and communicated to your travelers.

Improve Traveler Satisfaction

Give end-users peace of mind when booking their business travel as they will be following policy as part of the process.

Manage Your Policy

Extend your policy holistically to improve compliance and enhance the overall employee experience.

Take a look at [this guide](#) to find out even more advantages for you and your travelers.

Tailor Your Solution to Meet the Needs of Your Business

You can now select different messaging options for particular suppliers. Once a company has been chosen in the Manage TripLink Settings screen, you can choose a company travel configuration and three messaging options will be displayed to you for your employees.

1 **OPTION ONE** **Supplier direct booking is allowed for all suppliers**

Messaging is displayed to say employees are allowed to book directly with all travel suppliers and they will appear in Travel Partner Integrations and the SAP Concur App Center.

2 **OPTION TWO** **Supplier direct booking allowed only for selected suppliers**

Employees are informed that they are allowed to book directly only with the travel suppliers selected by the company, which will be marked as preferred.

3 **OPTION THREE** **Supplier direct booking is discouraged**

Messaging displayed will encourage employees to use the company's other preferred methods of booking, but they can still connect to travel suppliers in Travel Partner Integrations and the SAP Concur App Center.

New Admin Controls

Tailor Your Solution

Inactivating a Concur TripLink Supplier

If necessary, you can request to inactivate a Concur TripLink supplier and remove it from the SAP Concur App Center and Travel Partner Integrations. This is strongly discouraged, as it may result in a loss of visibility into bookings made outside of your organization. Instead, we suggest that you select Option 2 and discourage supplier direct bookings for specific travel partners.

Find Out More About Admin Controls

To find out more about Admin Controls, check out our [FAQ sheet](#), where you will find answers to any questions you may have and how these new controls can benefit your business.

Thank You
